

Dr. Niveen Zeyad S. Halalsheh

Head of the Department of Journalism, Media, and Digital Communication

Assistant professor /Department of Journalism, Media, and Digital Communication

School of Arts / The University of Jordan.

Mobile Phone: 00962795725077

E-mail: n.halalsheh@ju.edu.jo

* Holds a license to Practicing Academic Profession.

Dr. Niveen Zeyad S. Halalsheh is an expert in digital content design, specializing in digital media and modern online communication platforms. She has extensive media experience in creating professional content that combines effective messaging with creative design, mastering the use of advanced design tools and software to produce integrated multimedia content, including graphics, videos, animations, and interactive elements. Her work is distinguished by a deep understanding of effective communication principles and user experience (UX), along with a constant engagement with the latest trends in digital media and related technologies. Dr. Halalsheh contributes to the creation of media content that not only captures attention but also enhances interaction and effectively serves communication objectives. She is also dedicated to shaping the digital identity of organizations and institutions, crafting impactful media presence strategies that reflect modern communication practices in a rapidly evolving digital environment.

Education and Qualifications:

- **2020 PHD in Education Technology** – The University of Jordan, Amman-Jordan, GBA: 3.77, Excellent. The University of Jordan (**QS 324**).

Within the framework of the dissertation titled “The Effect of Using a (VAK) Model Based on Blended Learning on the Achievement, Development of Self-Learning Skills, and Motivation Towards Learning for the Students of Learning Skills and Scientific Research Course at the University of Jordan,” the cognitive domain of the study lies in the design of electronic content. The research focuses on developing digital content grounded in reception or learning styles (visual, auditory, and kinesthetic), aiming to enhance the effectiveness, engagement, and adaptability of the content to learners’ diverse preferences and cognitive characteristics.

- **2012** MSc of **Computer Information Systems** - Yarmouk University, Irbid-Jordan, GBA: 81.7, Very Good.

Within the master's project titled "Arabic News: Topic and Novelty Detection," the study falls within the domain of computational linguistics and information retrieval, focusing on the automatic processing and analysis of Arabic news content. The project presents a system capable of identifying the main topic of each Arabic news item while detecting its novelty, distinguishing newly emerging stories from previously published ones. This approach supports news agencies by improving efficiency in handling large streams of incoming articles and highlighting new developments in real time.

- **2008** Bachelor of **Computer Information Systems** - Yarmouk University, Irbid-Jordan, GPA: 80.8, Very Good. Achieve the fourth position on the kingdom in the university proficiency test.
